Embedded Systems And Their Applications  
Fourier Analysis And Stochastic Processes  
A Positive Psychology Perspective On Quality Of Life  
Earthquake Microzoning  
Advances In Machine Learning And Data Analysis  
Polymer Motion In Dense Systems  
Cancer Clinical Trials Proactive Strategies  
Nonequilibrium Carrier Dynamics In Semiconductors  
Dynamics Of Vortex Structures In A Stratified Rotating Fluid  
Bioinspired Technologies For The Hardware Of Adaptive Systems  
Advanced Finite Element Methods And Applications  
Impulse Breakdown Of Liquids  
Molecular Staging Of Cancer  
Microbial Siderophores  
Bail 2010  
Boundary And Interior Layers  
Computational And Asymptotic Methods  
Cancer Clinical Trials  
4th European Conference Of The International Federation For Medical And Biological Engineering 23-27 November 2008 Antwerp Belgium  
Corporate Control And Enterprise Reform In China  
Future Communication Computing Control And Management  
Intelligent Computer Graphics 2012  
Plant Nitrogen Metabolism  
Averaging Of Meteorological Fields  
Fuzzy Group Theory  
An Intimate Relation  
Risk Analysis Of Natural Hazards  
Dopamine In The Cns II  
Control Design Techniques In Power Electronics Devices  
Plasma Chemistry II  
Protocols For Authentication And Key Establishment  
Singularities And Topology Of Hypersurfaces  
Fuzzy Knowledge Management For The Semantic Web  
Soft Computing In Software Engineering  
Quadrupole Optics  
Networked Information Technologies  
Praxis  
Riemann Surfaces  
Elastic Filaments Of The Cell  
The Real And The Complex A History Of Analysis In The 19th Century  
In Search Of William Gascoigne  
Nanotechnology-based Precision Tools For The Detection And Treatment Of Cancer  
Spacecraft Attitude Determination And Control  
Genome Stability And Human Diseases  
It Innovation For Adaptability And Competitiveness  
Benchmarking Theory And Practice  
Intelligent Agents In The Evolution Of Web And Applications
