### [Medium/high rise moment resisting reinforced concrete ...](#)

The vertical load bearing structure consists of moment-resisting reinforced-concrete frames which also generally serve as the lateral load-resisting system. However, when larger spans are encountered, reinforced-concrete structural walls are included to provide a dual structural system.

### [Bluespan Lintels - quick, easy, strong for structural ...](#)

The Bluespan lintel is light, strong, easy to install and galvanised to protect it against corrosion. This pressed-steel lintel is the modern alternative to the traditional 'cast in-situ' reinforced concrete lintel. It cuts out the need to purchase timber shuttering, steel reinforcement (re-bars), sand, stone or cement.

### [Precast concrete lintels Stowell Concrete](#)

The table above is for safe working, uniformly distributed loads applied to the non-composite lintels in kN/m exclusive of the weight of the lintel. 215 x 100mm lintels in 2.1m, 2.7m and 3.3m lengths are non-stock items.
